☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

Status of Application: _____

(3) _____

(4) _____

Time: 12 pm

 (Examiner/SPE Signature)

 (Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant's has approved the Examiner's amendment which will change the term microfilament to microfiber. This is being done so to keep the term consistent with that which is known in the art of fibers, and also to clarify that the terms filament is usually used to describe a longer length; where as fibers can be of any length and here specifically a staple length is desired. Support for such a change is prompted by the length that is being used , that is 38-10mm which is a staple fiber (see claims 5) ~~per~~.
